SEPITAM
B60H38W21D

TYPE:

Sepitam-B60H38W21D

Sepitam outdoor boxes are designed for implementation in surveillance and monitoring projects. These enclosures offer various protection ratings, such as IP65 and IP66, making them resistant to water and dust. One of the key features of these products is their customization capability. They can be equipped with various devices and components, including cooling fans, thermal insulations, heating fans, surge arrester, batteries, UPS units, and other controllers. Additionally, Sepitam provides explosion-

- ▶ TYPE: Sepitam-B60H38W21D
- ▶ Outdoor Box

▶ Description:

It's an outdoor surveillance box which can integrate a fan, thermal insulation cotton, lock, etc. It has IP66 protection level and can be for outdoor using. It may be applied for surveillance monitoring, forest monitoring, etc.

▶ Properties:

- Provide 1 channel AC220V power input;
- The box body adopts waterproof (protection level IP66), anti-rust treatment, suitable for long time outdoor use;
- It can be applied to safe cities, smart transportation, tourist attractions monitoring, forest monitoring, water conservancy monitoring, etc.
- The product is modular and the following modules and devices can be added to the box as needed:
 - Air conditioner fan
 - Lock
 - ODF (Optical Distribution Frame)
 - Gland
 - Light
 - Micro switch
- It is designed for rack-mount installation

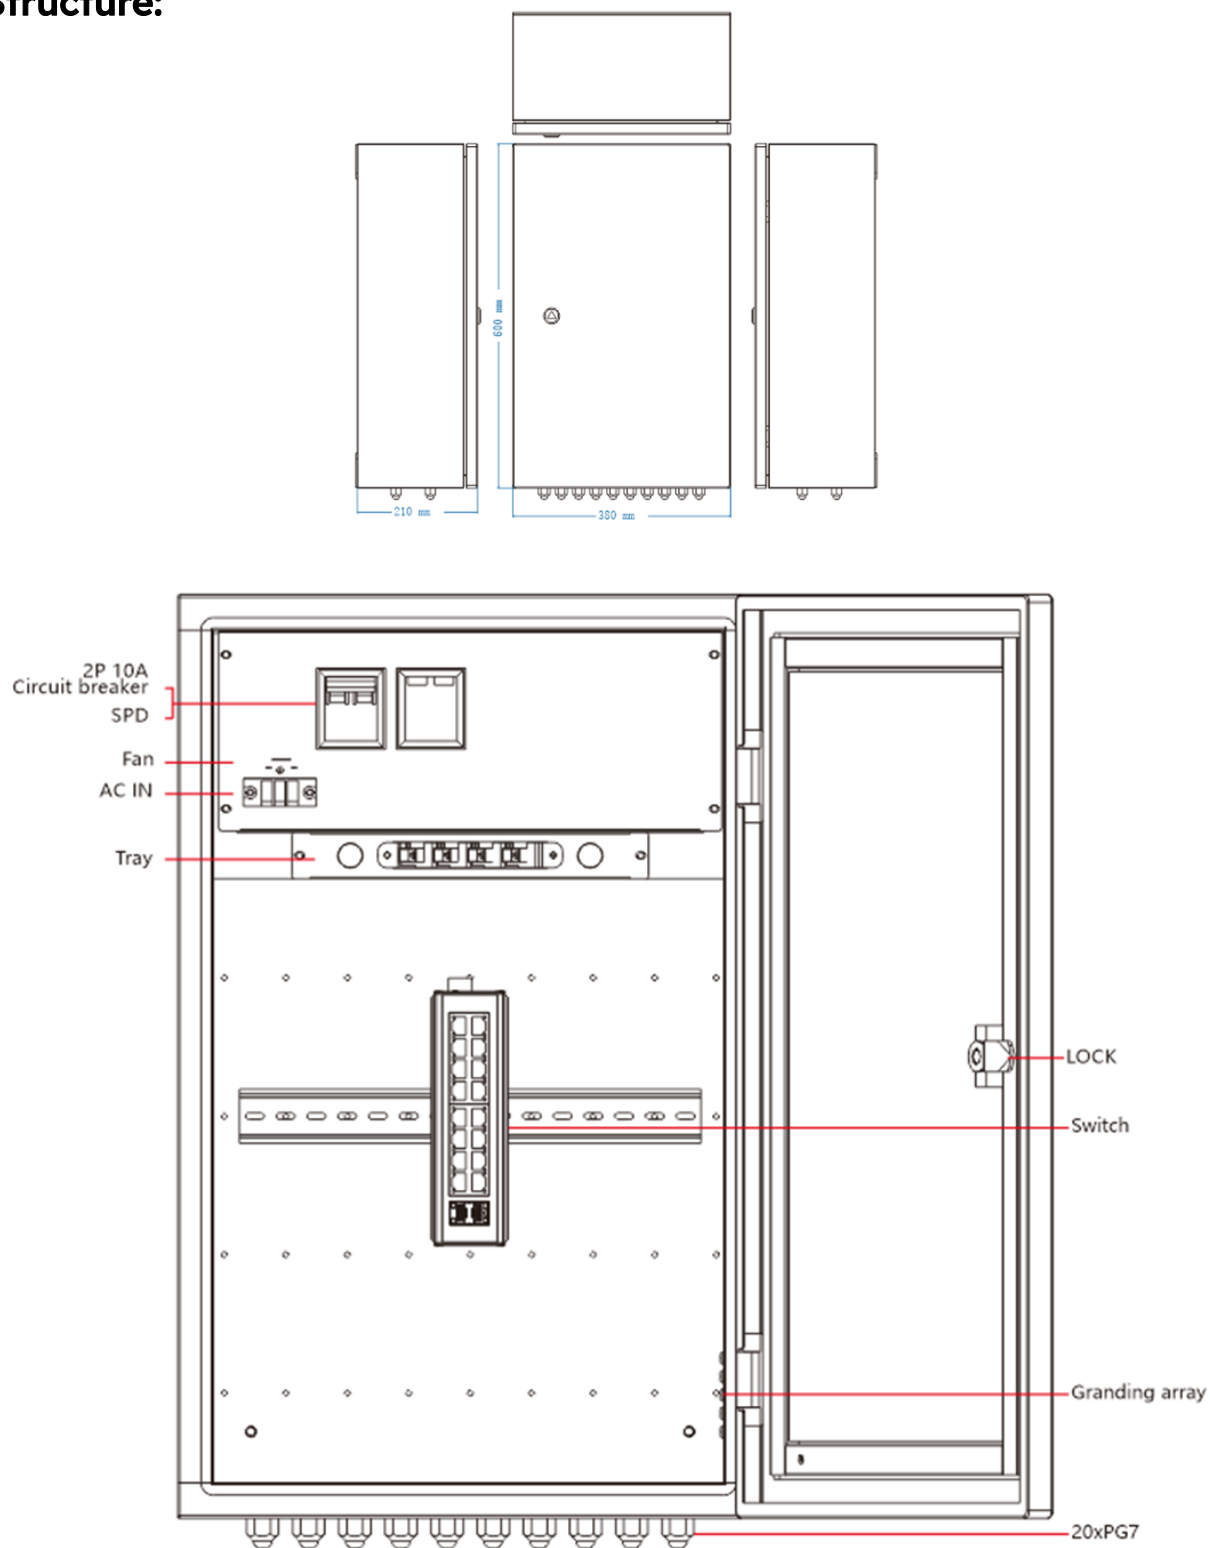

► Specifications:

Parameter	Sepitam-B60H38W21D
Power input	AC100~240V, 50/60Hz, 10A
Circuit breaker*	2P, 10A
Cable and distance	Use cat5e/6, 100m Max.
Connector	20×PG7,waterproof
Battery	54DC/500W
Operating Temperature	- 20℃~70℃
Storage Temperature	-40℃~85℃
Humidity (no condensation)	0~95%
Dimension (H×W×D)	60×38× 21 cm
Material	Metal
Color	White
Net-weight	20kg
